

Offering A Special Vehicle

Only our company has this special vehicle in Hokkaido.

Although this vehicle is a maximum of 7 passengers, two to four passengers are desirable for the VIP.

A chauffeur who speaks English is arranged as a driver guide.

Since no dedicated English guide is required separately, the costs can be saved thus the price becomes low.

The use of this vehicle is for the purpose of sightseeing and not for only welcome and send-off, however it will be accepted if the sightseeing is included.

Since this vehicle is a hybrid type car, its engine noise is very low.

An audio system in the vehicle has preparations of amplifier/speaker with a very high grade.

Passengers may hand carry their audio CDs into the vehicle.
